Coins for Kids

Smart Start of Davidson County Launches Coins for Kids Effort

Smart Start of Davidson County launched Coins for Kids, a fundraiser to benefit programs and services of the local partnership for children. Coin canisters will be distributed throughout the county between Nov. 1 and Dec. 9 – including child care centers and child care homes. Please check our website for a current list of container locations.

“Now is a crucial time for children and families in Davidson County,” said Linda Leonard, Smart Start of Davidson County executive director. “Too many live in poverty and suffer from preventable illness, neglect, abuse, inadequate quality education and violence. These problems are solvable if we each do our part. Coins for Kids is one of the ways Smart Start of Davidson County is working to create change, engage the community and help change the outcome for children and families.”

Members of the community can help support the partnership by turning small change into big impact for Davidson County’s children and families. All funds collected will help Smart Start of Davidson County support children and families through quality child care, parenting resources and access to health care.

If you see a coin canister, please dig deep in your pockets and join Smart Start in creating change! If you are interested in placing a canister in your place of business or, if you would like to make a tax-deductible donation, please contact Smart Start of Davidson County at 336-249-6688.

The earliest years of childhood are critical. Experiences during this time literally shape the structure of the brain. Because today’s children are tomorrow’s leaders, parents and workers, everyone has a stake in making sure all children have the experiences they need to thrive. Smart Start is the system that brings together all the people involved in a young child’s life—families, teachers, doctors, caregivers, social workers, and many others—to ensure every child has all they need for healthy growth and development.
